

Chikuni Parish Roman Catholic Church in partnership with Fondazione Arché ONLUS

# 4 STEPS TO

**Anti Human Trafficking Program implemented in  
Chikuni Parish 01<sup>st</sup> June 2013 – 31<sup>st</sup> December 2013**

## STEP ONE

After been contacted by ZAS and been asked participation to the Anti-Human Trafficking workshop, Mr Keith Hang'andu and Ms Sharon Mwiimbu were selected as participant to the same workshop.

Mr Keith Hang'andu is 38 years old, married, since January 2012 he has been working as a Community Facilitator, in particular he is fully involved and committed to the "Risky behaviour Prevention Program" targeting adolescents and

pre-adolescents in Chikuni Parish Area. Ms Sharon Mwiimbu is 20 year old, single, since September 2012 he has been working as co-facilitator in the same prevention program Mr Keith is involved in. Although she is cooperating with Keith only one day per week, she showed commitment, interest and continuity.

The Anti-Human Trafficking workshop took place in Lusaka, at Marian Shrine, on 2<sup>nd</sup> June to 6<sup>th</sup> June.

## STEP TWO

After Mr Keith Hang'andu and Ms Sharon Mwiimbu reported to Arché project manager in Chikuni, on 29<sup>th</sup> June 2013 a one day workshop was organized in Chikuni. Aims of workshop were:

- To share the knowledge learnt about Human Trafficking to the other members of the Staff;
- To design the best action plan that can be implemented in Chikuni Parish area according to the environment, to the resources available and the program already running, to the objectives decided.

At this second workshop all the staff member participated. In particular: Mr Gambirasio Gianpietro, age 35, project manager; Ms Nchimunya Hencilangu, age 23, community facilitator; Ms Mwinga Sepiso, age 23, co-facilitator; Mr Gasper Milimo, age 25, co-

facilitator; Mr Crispin Hanyika, age 21, co-facilitator.

During the meeting, it was found that the best action that the staff members can do in Anti-Human Trafficking Program, according to their experience and professionalism, has to concern about prevention and it can target three different groups. Three different modalities were studied in order to reach the target groups and to send them the message; these modalities were decided according to:

- the environment where the target group live;
- the understanding capacity of the target group;
- the experience of the staff members, in particular their communication skills;
- the prevention program already running, and the way the Anti-Human Trafficking program can fit in it.

### **Objectives of the program are:**

- to understand the level of knowledge of the participants;
- to define Human Trafficking;
- to clarify the meaning and the differences of coercion, exploitation and sexual exploitation, slavery, trafficking and smuggling;
- to aware the participants about the different ways they might be trafficked;
- to aware the participants about the service providers against Human Trafficking.

## STEP THREE

The prevention plan is tailored on the environment people live and the activities that Arché has already organized and started in Chikuni Parish area since September 2011. The Human Trafficking Prevention Program designed in Chikuni is divided in three different forms according to the target group.

### Adolescents and pre-adolescents

Fondazione Arché Onlus started a “Risky Behaviour Prevention Program” targeting this age group. The program takes ten sessions; the topics facilitated are risky behaviours, relationship skills, communication skills, decision making skill, and critical thinking development. During these sessions, the topic Human Trafficking is every time mentioned, explained, discussed with the peers, according to their feedback and the topic of that particular session.

Since Human Trafficking is a transversal issue, it was found easy to the facilitators and the co-facilitators to link the topics of the prevention program to it.

These ten sessions take place in Primary Schools in Chikuni Parish area, with grade 6, grade 7 and grade 8 students, according to the school time table and the particular agreement with the school staff. So far it was always possible to run the sessions weekly, for ten following weeks, per each class the program started with.

A total number of 672 adolescents participated to 108 meetings.

### Youth clubs

A specific session about Human Trafficking was prepared in order to run it with some of the

youth clubs and in some of the classes in the secondary schools in the parish area. Always day, time and venue of the session are previously arranged with the head teacher.

A total number of 472 youth participated to 14 meetings.

### Adult members of the communities

A specific session about Human Trafficking was prepared in order to run it with some of the communities in the parish area. Always day, time and venue of the session are previously arranged with the church leaders.

A total number of 448 adults participated to 6 meetings.

session in Chiyobola Basic School

session during the Orphans' camp

## STEP FOUR

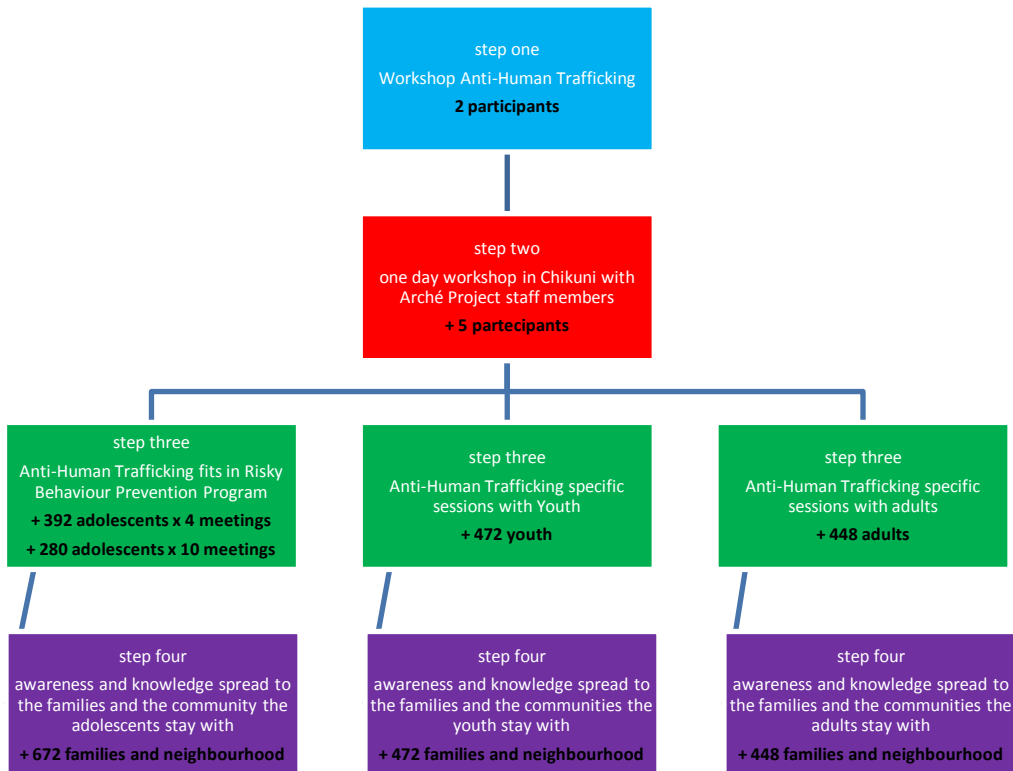

Adolescents, pre-adolescents, teachers, youth and adults participating to the sessions in the schools, in the villages and in the churches, share the knowledge and their awareness to the people they live with. Especially they share with family members, neighbours and friends.

The exactly number of people contacted in this step cannot be estimated with preciseness, but

an estimation of 1592 families and neighbourhood can be closed to the real impact of the activities.

Banners about awareness of Human Trafficking were fixed in some of the schools the prevention program were implemented. In particular two banners were fixed at the reception of Chikuni Community Radio Station, where a big number of visitors come daily.

### Scheme of the Human Trafficking Prevention action plan implemented during the period 1<sup>st</sup> June 2013 – 31<sup>st</sup> December 2013

## STATISTICS
