KISII CAMPUS PRY,
P.O. BOX 408,
KISII (KENYA.)
17/03/2010.

Hey guys!

How are you? We hope you are fine. Us here, are fine too. Our group members include: Ishmael, Clinton, Mbusu, Orina, Onyango, Charles, Mogendi Douglas, Dan, Enock, Moffat and pamfort.

Our hobbies include; Reading, Swimming, Playing games, Drawing, Watching Movies, Cooking and Digging.

It's another golden moment for us to put down this blue blood to inform you that we're padding, the hoop life keenly. As you know, unity is power, so we should unite together to fight this deadly disease "HIV/AIDS".

In addition, we as youths should abstain from premarital sex despite our body emotions. Let's not consider racial discrimination or family backgrounds since the disease does not consider these. We should keep minds that, if you are not infected, you are affected and vice versa. We should take serious note to make our people and the whole world prosper.

Can we say that the biblical foresights are being fulfilled or can we believe that the world is fuller than God's expected capacity? The answer is 'No'. We should put our customs such as inheritance aside and the scripture "Go out and Multiply" hence the world should be filled for granted. We human beings seem to obeying the nature of our bodies instead of having self-esteem.

Lastly, we as teenagers should refrain from sex bearing in mind that the world is heading to nowhere.

We are looking forward to share more and exchange opinions concerning this topic our discussion. Thank you.

Yours Colleagues.

Chitrel.

Dear pals,

Hi, we hope that you are alive and kicking. We are fine too. The reason why we are jolking down this epistle is to introduce ourselves to you. The girls in our group are; Elsie, Desree, Deborah, Elizabeth, Pamellah, Rebecca, Wendy, Victoria, Sarah and Belving.

Our hobbies are reading penpals ~~in~~ from your country and swimming. With our discussions we are skill on and we hope that we will be able to read to you our points during our first talk.

Our aim and theme is to create public awareness on this ailment. This will help us have a good chance in nation building since this pandemic is the main suffering and death in our nations.

We hope that we will participate with you in fighting this pandemic. We look forward in meeting you.

Your affectionate pals,
Hope squad (girls)
